To Whom It May Concern,

The purpose of this letter is to support Disability Mentoring Day. This is a wonderful program filled with opportunity for many young individuals. I fully support it and hope that continued funding will be made available so that participating individuals can continue to benefit from it. I am a second grade teacher and had the wonderful opportunity to mentor a young man who is considering the profession of teaching. He was a delight to host and my students were immediately drawn to him. This experience turned into a volunteer opportunity that continues for the rest of the semester and enriched the lives of both parties. Please continue to fund this deserving and life-enriching program.

Sincerely,

Wendy Lohhouse
